Extended Armament Vehicle (SMART TRANSFORMABLE MACHINE Ver.)
3つの形態を持つ小型の可変型エグザビークル。コンパクトな設計で生産コストが低いため、様々な戦場・基地で多く活用されている。運搬のしやすい固定砲台モードで防衛拠点などに投入されることが多く、敵機の機動性に合わせて移動砲台モードやエグザマクスモードに変形できる。武装には小型ガトリングを採用しているが装弾数はそれほど多くないため、最終的にはエグザマクスモードに移行し、戦場や基地内の武装を拾いながら臨機応変に戦う。武器を使わず、腕部を使って格闘している姿も戦場で目撃されている。

This is a smart transformable Extended Armament Vehicle that can turn into three modes. They are widely deployed at various battlefields and bases thanks to their compact design and low production costs. They are often stationed at defense bases in an easily transportable fixed turret mode and can transform into mobile turret mode or EXAMACS mode depending on the mobility of enemy units. They are armed with small Gatling guns, but their limited ammunition capacity forces them to flexibly adapt to combat situations and transform to EXAMACS mode and arm themselves with weapons found on the battlefield or bases. Unarmed units have also been witnessed fighting with their bare arms in combat zones.
